## WORK EXPERIENCE

---

**Perplexity**, *AI Business Fellow*, Newport Beach, CA

**February 2025 - Current**

- Selected for Perplexity's Fellowship to gain AI knowledge and real-world applications for business leadership.
- Participating in hands-on sessions led by CEOs from top tech companies like NVIDIA, Box, and Databricks.

**Chipotle Mexican Grill**, *Product Owner (Full Time)*, Irvine, CA

**January 2025 - Current**

- Transformed outdated APIs and data services to ensure modernizations within company systems and platforms.
- Gathered and analyzed feature requirements, transforming them into user stories with defined acceptance criteria.
- Defined, prioritized, and managed the product and sprint backlogs, facilitating successful refinement sessions.
- Led estimation and work planning sessions with the Scrum Team, ensuring timely product releases.

**Glidewell Dental**, *Product Owner (Full Time)*, Irvine, CA

**September 2023 - January 2025**

- Created software allowing teeth restoration mock-ups for dentists to illustrate treatments to their clients.
- Communicate, translate, and simplify business requirements to ensure buy-ins from all stakeholders.
- Worked and collaborated with stakeholders on Product Backlog Items (PBIs).
- Wrote Project Review Documents (PRDs) for various projects.

**Optima Tax Relief**, *Product Manager (Full Time)*, Costa Mesa, CA

**August 2022 - September 2023**

- Wrote and managed tickets utilizing AWS features and solutions such as Lambda, Cognito, Redshift, and Connect.
- Wrote HTML & CSS to ensure accurate visualizations of results for software development.
- Optimized application UI/UX and workflow, causing an increase in customer conversion rate by 18%.
- Migrated and developed a mobile application that increased revenue by 23%.

**Zuum Transportation**, *Technical Product Manager Intern*, Irvine, CA.

**March 2022 - June 2022**

- Built an implementation of automating emails into a database using Natural Language Processing and API endpoints.
- Researched and deployed various software to find the ideal architecture for the project.
- Worked on Jira Tickets and Agile Storyboarding; one-week sprints and pointing poker.
- <https://github.com/ZUUM>

**Product Association**, *Member/Product Manager*, Irvine, CA

**December 2020 - June 2021**

- Part of a small team working on a product that is an original idea, from start to end.
- Allowed for a better understanding of product management, product design, and product marketing roles.
- Worked on product management, and working on prototyping a product idea.
- ([productuci.com](https://productuci.com)) (<https://www.figma.com/file/sYRF81qZILakVW8wJHOGjo/SYNC?node-id=109%3A61>)

## PROJECTS

---

**Personal Website** *Technical Product Manager & Software Engineer*, Irvine, CA

- Built and designed website using HTML, CSS, Javascript, Netlify, and Github Pages.
- Summarized industry niches and how they are important in the current world.
- <http://parsakhazravi.io/>
